

1 REPLACE YOUR FOAM SET

You will need:

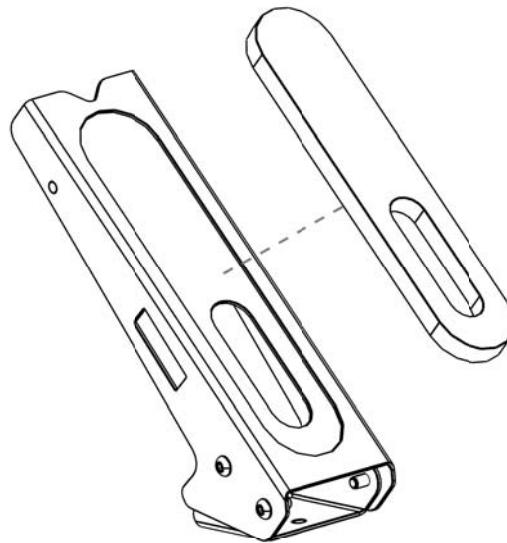

- Clean Rag
- Methylated Spirits / Denatured Alcohol

- (A) Remove the original foam from the Holder by pulling / peeling it free. Using a rag and some methylated spirits / denatured alcohol clean the area where the original foam, ensuring that all the remaining glue has been removed.

Remove Original
Foam and Clean

- (B) Peel the backing paper off the Replacement Foam to reveal the adhesive back. Position the foam over the holder, adhesive face down, and press firmly into position.

- (C) Congratulations, you have completed your installation. Take a step back and admire your work. Good Job!
